

GUJARAT UNIVERSITY

The Gujarat University was conceived in the nineteen twenties in the minds of public-spirited and learned men like Gandhiji, Sardar Patel, Acharya Anandshankar B. Dhruva, Dada Saheb Mavlankar, Kasturbhai Lalbhai and many others. However, the University could come into existence only after the achievement of independence. In 1949, the University was incorporated under the Gujarat University Act of the State Government 'as a teaching and affiliating University.' This was done as a measure of decentralisation and reorganization of University education in the then Province of Bombay.

It has more than 4 lakh students scattered over 286 colleges, 22 recognized institutions and 24 approved institutions. There are 36 PG departments & 221 PG centers. It is 1st State University won National award for NSS program at Rastrapati Bhavan at New Delhi. GU hold 1st rank in GSIRF since academic year 2019-2020

PRESIDENT SCIENCE COLLEGE

The state of the art infrastructure of the institute has been set up exclusively equipped with virtual classrooms along with fully equipped laboratory with latest equipment. We also provide our students with computer facility for dealing with projects, seminars and research work. The spacious built up area of the five storied building also includes board room, seminar hall with sitting capacity of 200, library cum reading hall with national and International Journals, administrative and support facilities, computer lab with 100 Mbps dedicated broadband connection. Classrooms have all modern teaching aids like LCD Projectors and other audio visual equipment.

President Science College offers a motivational learning environment that challenges its students to excel. At PSC everyone constantly strives for excellence, i.e. 'Perfection in Action', and this makes all the difference.

OBJECTIVE OF THE PROGRAM

To have the exposure to the latest trends and technologies is becoming essential in every sphere of the life. Experts will give insight to the recent trends in the biological, chemical and physical science. Poster presentation will provide an excellent platform for young students and researchers to share findings and display their research work. It will also identify projects where a new product or technology is created with high societal impact and convey research objectives, methods, findings, and implications effectively to varied professional audiences.

THEME OF THE CONFERENCE

Biological Sciences: Phytochemistry & Pharmacognosy, Bioremediation, Molecular Biology & Bioinformatics, Medical Microbiology, Host microbiome interaction, Agricultural research, Bioenergy, Biodiversity & its conservation, Ecology & environment

Chemical Sciences: Nanotechnology, Green Chemistry, Phase Transfer Catalysis, Polymer Science, Stereo Chemistry, Drug Delivery, Modern Separation Methods, Bio-Analytical method, Supramolecules, Biosensors, Inorganic Materials, Food Chemistry, Climate Change, Medicinal Chemistry, Pharmaceutical Chemistry, Environmental Chemistry

Physical Sciences: Condensed matter physics and Nano materials, Applied physics (General), Optics and Lasers, Atomic & Molecular physics, Bio-physics & Medical physics, Semiconductors, Material Science, Computational physics & Numerical simulation, Astro-Physics, Electronics and other topics related to Physical Science
